

Jeroen Grigioni

Biomedical Engineer

- 04.04.1997
- Badenerstr. 293, 8003 ZH
- +41 78 230 62 88
- jeroengrigioni@icloud.com
- https://jeroeng44.github.io
- Swiss/Dutch Citizenship

Languages

- German
- English
- Spanish
- French
- Afrikaans
- Portuguese

Technical Skills

- Python: Computer Vision
- Motion Tracking and Image Analysis
- Medical Image Processing: U-Net
- MATLAB and R
- SQL and Data Handling
- CAD: SolidWorks and Fusion 360
- FEA: Abaqus

Work Experience

- Research Engineer** Laboratory for Orthopaedic Biomechanics
Biomechanical testing of novel surgical techniques - visit my personal website for further project details
- Lead Tutor for the Laboratory Course in Medical Technology** ETH Zurich
Leading and coordinating 8 teaching assistants and 300 students.
Course Content: Boneplate design and testing:
CAD → FEA → Material Testing → Biomechanical Testing
- Physical Education Teacher** Sekundarschule Spreitenbach
Substitute teacher for PE in secondary school
- Health Coach** CARE
Consulting and coaching clients based on blood samples and other health measures
- Research Internship** Mechanical Engineering - UA
Creation of a finite element head model using medical images
- Production Engineer Intern** BIOTRONIK AG
Leading Medical device company (cardiovascular and endovascular implants); test method validation; development of test instructions; data analysis of material usage decision trends
- Mathematics Tutor** Zürcher Nachhilfe
Provide individualized instruction and guidance to students to help them improve their understanding and performance in mathematics
- Mathematics Teaching Assistant** ETH Zurich
Summarize the content of the lectures and help students with their weekly self-study. Teaching Assistant to Prof. Farkas
- Client Advisor** Helsana AG
Daily interaction with customers and using their feedback to improve the Helsana+ app

Education

University

- Master in Medical Technology (Ø 5.54)** ETH Zurich
Key courses: Biomechanics, Biomedical Engineering, Machine Learning, Finite Element Analysis, Soccer Analytics
Master Thesis (Ø 5.75) ETH Zurich and University of Aveiro
Creating a 2D tau protein propagation model and exploring the quantification of brain tissue volume in female brains in relation to age
- Teaching Diploma in Physical Education** ETH Zurich
Theoretical and practical education in various sports
- Bachelor in Health Sciences and Technology (Ø 5.28)** ETH Zurich
Focus: Biomedical Engineering, Medical Technology

School

- Bilingual Business and Law High School (Ø 5.5)** Kantonsschule Hottingen
Immersive high school program for bilingual students in business and law
- Exchange Year in South Africa (English/Afrikaans)** High School Piet Retief
Exchange Year in Piet Retief, South Africa
